City Still Hopeful  
Levee District Will  
Pay \$100,000 Or More

(Picture on Page 17)

Cost of sanitary sewer replacement along Aubrey and St. Clair avenues has soared to nearly a quarter-million dollars, with the job now virtually completed.

Remaining work includes the line under Jill avenue between the Aubrey and Levee avenues manholes and street replacement. Total cost to the city to date amounts to \$236,211.

The city's latest financial report, as of Sept. 30, showed the sewer maintenance fund to be \$219,184 in the red. However, the city still is hopeful its request of last summer to the East Levee & Sanitary District for financial assistance will be fulfilled.

**Mayor Seeks Meeting**  
Mayor Davis advised the Press-Record on Friday that he plans to arrange a meeting with Levee Board President Lawrence Tolar this week or next to pinpoint the amount of financial aid. The city has asked for \$100,000 or more.

Last week, when asked by the Press-Record if the levee district was contemplating aid to the city on the sewer replacement project, Tolar said it was still under consideration but not yet decided. "We're still in the midst of studying our finances," Tolar said.

"That was the answer given city officials last summer when they made the initial appeal. At that time the levee district was making final payments on the sanitary sewer replacement project along Terrace lane.

**Levee District Trunks**  
The lines that collapsed along Terrace lane and also along Aubrey and St. Clair avenues were main trunks that had been installed seven years ago by the levee district as its portion of the Nameoki sanitary sewer system.

## \$800 Fire Damage At Residence In Madison

Fire caused an estimated \$800 damage at 4 a.m. Saturday at the home of Mike Grig, 906 Grand avenue. Madison firemen listed the apparent cause as a smoldering cigarette.

The blaze resulted in about \$500 damage to contents of the living room and \$300 damage to the one-story frame dwelling. The firemen also responded to a weed fire in the 1400 block of Sixth street at 3:45 p.m. Friday and an alarm at the Laclede Street Co. at 9:50 a.m. today. Workmen were repairing the wiring accidentally set off by the fire signal, which prompted a Laclede watchman to summon the fire department.

## Prospect Of GC Acquisition A Factor In Vote

\$3.72 Pontoon Rate  
As Part Of City; \$4-  
Plus As New Village

(Eighth of a series)

A desire to remain separate from the city of Granite City is regarded by some Pontoon Beach residents as a factor in the village incorporation election scheduled to take place on Saturday, Dec. 8.

How real is the fear of a land grab by Granite City? The apprehension appears to be genuine, but it is unknown whether there is a basis for it.

There is still some distance between Pontoon Beach and the eastern edge of Granite City, and city officials have not been vocal in their desire to extend the city limits to include Pontoon Beach.

Illinois state law provides that incorporation can take place in an area of two square miles or less having at least 400 residents in permanent dwellings, provided that the majority approve and that the village area is not within a mile of an existing municipality.

**Village Could Expand**  
The one-mile law would not apply after incorporation took place, meaning that the village then could extend its boundaries westward despite proximity to Granite City.

It could not take in any land within the city of Granite City, however, just as Granite City could not take any of its territory. An exception to the rule would be a merger, which would require voter approval in both municipalities.

While Granite City has made no move to acquire Pontoon Beach, it is possible that fear of annexation has been generated by the gradual outward growth of the city along Pontoon road.

The general pattern of expansion has been along Pontoon road, east, and Pontoon Beach unquestionably is located within that general area.

**Predicts Small Budget**

Willard F. Hicks, former Nameoki township clerk, who testified in the county court at the time the village proponents sought an incorporation election has advised the Press-Record that only a small yearly budget is being discussed.

Spending would be far less than the \$17,000 currently being paid by Pontoon Beach residents to other taxing bodies, he said.

**Division Breakdowns**  
A breakdown of tax force and village results as of this morning was as follows:

**INDUSTRIAL** — Manufacturing Firms & Employees \$203,003 or 94.5%; Utilities \$10,348 or 5.5%; Building Trades \$692 or 0.3%; Transportation \$288 or 0.1%; Outside Area Firms \$295 or 0.4%; Labor Groups \$212 or 0.1%; Total \$214,628 or 95.2%.

## Department Rearranged

Anticipating the annual, winter increase in patients, St. Elizabeth Hospital is rearranging its third floor to provide an additional 35 medical department beds.

Sister Mary Thomas, administrator, said the hospital had to turn away medical patients last year because of a lack of space, and it is hoped the problem will be corrected by the changes under way.

"Because of the current war-

## 'Callbacks' Are Key To Successful UF Drive

\$14,018 Needed For  
\$299,231 Goal; Units  
And Firms Are Honored

The Tri-Cities Area United Fund stands today at \$285,263 or 95.3% of its \$299,231 goal, according to the latest audited figures. Final attainment of the goal is in sight and can be reached in a few days, according to John McBride, general campaign chairman.

Unreported assignments in the hands of campaign workers can produce the desired result, he said, urging "callbacks" to be completed in the next few days.

"It's up to you to finish the job you agreed to do without further delay," McBride told his campaign workers Thursday afternoon.

"We are so close. Don't stop now," he said, stressing that the campaign needs all gifts to reach its goal.

Only two of the six United Fund task forces made their assigned goals in time to be reported at the "Victory Dinner" last Thursday afternoon at the YMCA.

It was the final luncheon meeting of the campaign and was attended by about 60 key workers. All such meetings were paid for by the individuals.

The Municipal Units and Professional task forces "went over the top" with 100.5% and 105.4% respectively of their assigned quotas.

Seven of the 27 flotillas comprising the task forces have made their goals. They are Granite City Post Office 111.6%, State & Agency Employees 103.3%, Police 108.7%, Venice 118.2%, Clubs 101.7%, Medical 120.4% and Legal 18.8%.

The several units are very close to their respective goals, McBride said.

VETERANS' DAY FLAG BEARERS from Madison Amvets Post 204 getting an early start in placing flags along Madison avenue this morning. Flags also were placed in the downtown Granite City area by the Associated Retailers, and a large number are displayed at homes. The Amvets flag bearers, left to right, are—Harry Perkins, Vasil Gravel, John Kozak, John Durant and Steve Kusnierczak.

## Veterans' Day Services Today By Amvets Post

(Picture on page 7)

Madison Amvets Post 204 conducted Veterans Day Memorial services at 11 a.m. today at the Madison Memorial Recreation Center. A prayer was read and Commander Stephen Kusnierczak placed a wreath on the memorial stone listing the names of Madison men killed in world war II.

Other post officers taking part were Harry Perkins, service officer; Vasil Gravel, public relations officer; John Kozak, membership director; and Sam Boshkoff, finance officer.

**Flag Station**

The Amvets also decorated the Madison business district with flags early this morning. Shortly after they started, one flag was stolen.

Flags were first placed along the east side of Madison avenue. As the veterans went down the other side of the street about 6:30 a.m. they noticed one of the flags in the 1000 block was missing. The staff was found against a building but the flag was gone.

In Granite City the Associated Retailers & Civic Association decorated downtown streets with flags.

Residents throughout the Quad-Cities area are displaying the flag at their homes.

## Levee District Seeks Bids On Unfinished Sewer Project

Scaled bids for the separate construction of three sections of an East Side Levee & Sanitary District sanitary trunk sewer line in Cahokia and Centerville township will be opened before the end of the year by the district, although it has not completed financing arrangements for any portion of the project, known as 20-B.

The entire project, consisting of four sections of 20-inch pipe with pumping stations in each section, makes up items covered by a proposed \$1,390,000 improvement and construction bond issue.

Granite City had been promised this amount for installation of interceptor sewers in connection with a sewage treatment plant. The bond issue would virtually deplete the levee district's bonding power and the financial arrangement is expected to be completed before Dec. 31. The end of the year ends the levee district's freedom to issue bonds without a referendum.

It would form the main line to a sewage treatment plant in Cahokia in the district's pollution abatement construction program.

Bids on section one of the project, running from Range and Jerome lanes in Cahokia eastward on Jerome lane for about 180 feet, are scheduled to be opened by the levee district on Nov. 26. Estimated cost is \$240,000.

Section No. 2, bids will be opened and read in Dec. 10. The section is an extension of the pipe along Jerome lane.

On Dec. 26, scaled bids on the third section of the project, a 12,500-foot section running southwest from Jerome lane to State Route 157 to Church road, will be opened at the levee district offices.

Bids on a fourth section will be sought early next year. The final segment would extend from Church road to the vicinity of the Cahokia Dunes racetrack.

Levee district Chief Engineer A. W. Kraemer said no contracts for any section of the project will be let until the district has funds available through the sale of bonds.

The district advertised the \$14 million issue during the first week in September, but on Sept. 8 announced postponement of its plans, giving the bond sale the need for "more audit and financial information" as the reason.

At that time, levee district Atty. John Sprague said the bonds would be readvertised for sale "in a few weeks."

It was indicated that free land for the laboratory site at the university, which was obtained, which also would put the facility within a few miles of Washington and St. Louis Universities, as well as close to four major rivers — the Mississippi, Missouri, Illinois and Ohio.

## State To Resurface Two Sections Of U.S. 67a In Area

A special bid last week included a \$161,930 asphalt low bid for three projects in Madison county — two near Mitchell.

The projects call for resurfacing sections of U. S. Highway 67a and U. S. Bypass 66-40 west of Mitchell and pavement for a section of the Great River Road (Federal Aid Route 151) south of Hartford.

The apparent low bidder was Hoeffken Bros., Inc., Belleville. The U. S. 67a work includes paving about 1.12 and 2.3 miles sections south of U. S. Bypass 66-40. The Great River Road pavement will start a half mile south of Hartford and will extend 2.56 miles south.

## 16 Persons Hurt In 11 Of 3 Area Traffic Mishaps

Burglars Enter  
2 Stations, Pool  
Hall, Warehouse

Burglars stole cash, ammunition and cigarettes valued at \$570 at two Granite City service stations and took a \$150 record player from a downtown furniture store warehouse over the weekend. Police reported six other thefts in the area since last Thursday.

A service station operated by John Cell at 18th and State streets was burglarized last night and approximately \$450 in tools and cash were stolen. The burglar made his entry through the women's washroom, removed a ventilator and climbed through into the men's washroom to enter the office. Stolen were \$300 in tools belonging to the garage mechanic, Vance Reiss, of 3727 Nameoki road, and \$150 in tools belonging to Cell. Police are investigating.

**\$122 Burglary At Station**  
Cash and merchandise valued at about \$122 were stolen in a burglary at Willis Snyder's Service Station, Cayuga street and Rock road over the weekend.

Items taken included 30 boxes of shotgun shells, 60 boxes of rifle shells, three cartons of cigarettes and soda machines and two pairs of gloves.

Snyder's 1959 auto which was parked inside the station also was stolen. It was found about 4 p.m. Sunday on Rock road outside the city limits.

Damage was gained by smashing a restroom window, a door to the supply room and a door to the men's room. Snyder told police the break-in occurred between 8:30 p.m. Saturday and 3:15 p.m. Sunday.

**Warehouse Entered**  
The H & R furniture warehouse at 1820 Cleveland blvd., was entered over the weekend. Police said a rear window was broken and pulled open to gain entry. Missing was a \$150 record player with radio and a clock radio. The burglary was discovered this morning.

Cash was taken from a computer music box in a week-end break-in at the Granite City Pool Parlor, 1911 State street. The proprietor, Earl O'Hare, 207 State street, Madison, said the theft occurred between 11:30 p.m. Saturday and 11 a.m. Sunday.

Entrance was gained by removing a rear window that had been pulled shut, police said. The juke box was opened by the burglar.

## Fire Causes \$300 Damage To \$1500 Camping Trailer

A \$1500 camping trailer, belonging to Charles Percy, 2261 North street, was damaged by a fire discovered about 8:50 a.m. Sunday. Firemen from the West Granite station answered the alarm and set the loss at \$300.

The trailer was locked and had not been used since Saturday. However, a mantle from a gas light above the bed was missing, and it is believed to have fallen on the bed and smoldered.

Nine Hospitalized; 7  
Of Victims Injured In  
3 Crashes On Rte. 111

Injuries were suffered by 16 persons in 11 of the 30 traffic accidents reported in and near the Quad-Cities over the weekend. Nine of the crash victims were hospitalized.

Police noted a wave of two-car mishaps and that three crashes along State Route 111 injured seven persons. Among the injured also were a girl bicyclist and a school custodian who was hurt while setting up a portable electric signal at a school crossing on Pontoon road.

"The auto flipped end-over-end at least three times once in the air—and then rolled over twice," a witness told state troopers in describing a one-car crash on Route 111 near Lakeview Airport about 4:30 p.m. Saturday.

"The driver," the witness continued, "flew out on the second flip as the auto was disintegrating."

The motorist, Danny Towery, 21, of 2929 Pershing avenue, a Granite City Steel Co. employee, was admitted to St. Elizabeth Hospital. He is being treated for abrasions to his forehead, both lower legs, right hip and back. His condition today is fair.

State police said the auto was going north "at a high rate of speed" when the driver passed another car. He went onto the shoulder upon turning back into the lane. The auto then went out of control, crossed the roadway and flipped end-over-end, throwing the driver out, and then rolled.

**4 Hurt In Highway Crash**  
Four persons were injured about 10:30 a.m. Sunday in a two-car collision at the intersection of Pontoon road and Route 111. State police said Edwin W. Schaeffer, 51, of St. Louis, was driving east on Pontoon road when the other driver, Juliette Bland, 40, of East Alton, was driving south on Route 111.

Schaeffer suffered injuries to the chest and abdomen. His passenger, Mrs. Dorothy Zink, 48, of St. Louis underwent surgery and is in critical condition. She suffered multiple contusions about her body and abdominal injuries.

Juliette Bland is in fair condition with lacerations to the right knee and injuries to the chest and nose.

A passenger, George Saul, 41, of Niro, W. Va., and St. Louis, underwent surgery. He suffered a broken leg and lacerations to the head and face.

All four are in St. Elizabeth Hospital.

## Hurt On Pontoon Road

In an accident Friday morning, a severe fracture to his arm at the knee joint was suffered by the custodian of St. Elizabeth school who was placed in a portable electric signal in the street.

Oswald Becherer, 63, of 2117 1/2 Madison avenue, was taken to ambulance to St. Elizabeth Hospital where surgery was performed.

Police have been unable to determine whether Becherer was struck by the auto involved or ran out of control on the wet pavement of the 18th-Benton street curve and crashed.

A listing of property in Nameoki township on which taxes are delinquent for 1961 and for 1960 and more than eight years back appears on pages 22 and 23 of today's issue.

The apparent listing for Granite City and Venice townships will be published later this month.

Dan W. McGee, county treasurer, has announced a public sale of property with delinquent taxes to be held at 9 a.m. Dec. 17 at the court house in Edwardsville.

## Permit Is Issued For New \$95,000 Apartment Bldg.

(Sketch on Page 9.)

A construction permit was issued at city hall last week for a 20-unit, \$95,000 apartment building along Pontoon road, according to Earl Bloomquist, city building inspector.

The new building is the first of the Pontoon Plaza Apartments planned by Leo Wolf, developer and builder. Construction is now underway at the rear of the proposed Pontoon Plaza shopping center site, which is east of Cloverview subdivision.

A spokesman for Wolf said the units will be two-bedroom, fully carpeted and air conditioned. Built-in oven and range and refrigerator will be included in each unit, along with garbage disposal.

Adjacent to the building will be a single off-street parking area and a swimming pool, he said. Storage lockers and laundry facilities will be provided in the basement.

The two-story building will be of brick veneer construction. A U-shaped structure, it will consist of two 150x110 foot wings joined by a 55x32 foot center section.

The apartments are scheduled to rent for about \$120 monthly. Wolf's spokesman said additional units are planned in the future.

### Other Permits

Other permits issued last week brought the permit total for the first week of November to over \$100,000. Bloomquist said. Construction and improvement project permits totaling \$43,955 were issued, and Louis G. Champion received a permit for installation of a \$3400 mobile home at 2439 Ohio avenue.

Richard Woods received a permit for a \$700 garage at 1860 Poplar street, and Elizabeth Rhodes received a permit for a \$500 garage at 2128 Dewey avenue. A permit for an \$800 carport at 2722 Iowa street was issued to Robert Walters.

Harold DeShazer received a permit for installation of siding at 2014 Buxton avenue at a cost of \$1785. Dwight Arnette received a permit for installation of siding at 2230 Dewey avenue at \$500, and Robert Demeron was issued a permit for general repairs costing \$200 at 2722 Iowa street.

## Schory Percussionists Well Received In Concert

By John M. Moore

The opening concert of the Community Concert Association season at the Granite City high school auditorium Sunday afternoon attracted a large audience to hear the tremendously popular Dick Schory group, a nonpareil percussion ensemble. A spontaneous standing ovation at the end of the performance proved it to be the best-received of all concerts in the association's ten years.

The first half of the performance embraced 16 separate compositions. Lerner-Loewe, Christian, Gershwin, Tchaikovsky, Schory-Charlovsky, varied Broadway music, Traditional (square dance music), Offenbach and Mancini describe the amazing breadth of the first half.

### 19 Percussionists

Nineteen precision men, faithful to the classics as to any of the more modern and popular of musical trends, solidified percussion as an expressive medium with the entire audience.

The pictorial trend of Gershwin's description was a preview of the four Broadway numbers—"Camelot," a sound description of the music—"It's Legitimate," "Dixie Land" so faithful it might have been right in New Orleans, except it was better—"Sixty-Six Trombones," the thrilling "Music Man" march, so precise and powerful that it sounded like a full regimental band.

Eighteen-year-old Gary Burton, selected by Schory from many applicants, was introduced to the audience by the leader as a full-blown jazz artist. "I'm a young man had written to Mr. Schory for four years, asking the privilege of becoming a part of the group. When he was auditioned, the artist played everything on sight to perfection."

This percussionist, along with two other players, an amazing number of varied instruments, sometimes moving fast to get to another apparatus during the performance, then to another and another and another.

The performance, however, was dignified and pleasant, the treatment of many musical numbers to high muffled humor, and was enjoyed by performers and listeners alike.

The second half of the program consisted of 16 numbers plus two equally excellent encores, "Apple Turnover" and "Brass Jockey." The character of the music varied from the Golden Record Medley to the folk-music "Greensleeves," and "Slaughter on Tenth Avenue," Rodgers-Hart.

The audience participated in Bully (a bull fight spectacular), by answering with the traditional "Ole" when the bull tore past the matador. The final encore, "Brass Jockey" described to the horse race, stamping in the starting gate, whistles, pistol shot, hoof-beats pounding the dirt, neighing thoroughbreds, and was probably the most concentrated extemporaneous play.

To say anything appropriate to the artistry of Schory (repeated as the best arranged of the year 1960) and his group is impossible. One can never believe the breadth of effect until he has heard a little of it, as the concert association members did.

It must be said, nevertheless, that this superb symphonic, jazz and educational figure, Dick Schory, has not only beautified and popularized percussion, but has also accomplished this by selecting a group of musicians, any one of whom could do the work of three at his instrument or instruments.

## Pollution Study Committee May Meet This Week

The emergency pollution study committee of the Granite City council is expected to meet this week, but a date has not been set.

The committee, which is in the process of selecting an engineer firm to design an overall sewage treatment plant, is waiting for a reply from the Federal Housing and Home Finance office in Chicago.

The agency has been asked by the committee to set the amount of the loan spent on treatment plant planning under the Citizens Sewer & Drainage Committee program.

Basic data on a treatment plant was gathered by a local engineering firm, and it has been recommended to the committee that the firm be given preference so the city will not pay twice for the same preliminary work.

A representative of the Housing and Home Finance Agency told the Press-Record several weeks ago the data compiled for the city to treat sewage.

The new study, eliminating the separation of storm and sanitary sewage, would have to be reviewed before the amount of the loan to be repaid could be determined.

The state Sanitary Water Board plans to hand down a decision Dec. 4 on an order to the city to treat sewage.

**Cameo END/RUN SEAMLESS SHEERS**

Not to the new, sheer 15-denier nylons that are sheer blue! Cameo End/Run stockings have a unique stitch that will not permit the leg-long runs so common in ordinary stockings. It's the "end" of lengthy runs! (Oh yes, you can get a snag-and-hole in them, and—if you really try hard—a tiny run.) But with customary care, you'll find these End/Run stockings rule out regular runs. Snags, streak-free matte finish, no mottled colors for flattery.

Apparently unstoppable, Belleville's hulking football Maroon moved one step closer to a Southwestern conference title here Friday night by plastering outmanned Granite City 46-0 in a chilly final game crowd, much of which was not around at the finish.

It was the ninth straight victory this fall for Bob Frolo's club, and the Township gridgers upped their SWC mark to 5-0 in the process.

But East-St. Louis and Alton kept the pressure on the Maroons by also winning Friday, by much smaller margins.

Alton completed its SWC schedule with a 21 mark in a 28-6 victory over Wood River. East St. Louis pulled one out of the fire against Collinsville scoring in the final minute to win 12-9.

The Flyers triumphed in six straight games, stand 4-1 in the conference and meet Belleville Thursday morning in the final game for both schools and also the title decider.

A Flyer win, which would appear unlikely to most fans who watched the Maroon machine steamrolling Friday, would throw the final conference standings into a three-way tie for first place between Belleville, Alton and East St. Louis.

"I believe we've even a better chance than we were at this time last year," said the cryptic Frolo after Friday's runaway. "We've got a ground game we didn't have last year."

### GC Ends With 0-6 Mark Grants Win, which dropped

its seventh straight game and 18 in two completions in the Southwestern play with an 0-6 mark, did not see much of that in the early minutes of play, as Frolo chose to experiment with a variety of pass patterns.

"The most effective was a little screen sort, which gained 33 yards on two completions in Belleville's 60-yard march for the first quarter's only score.

Township showed granite some really rugged defensive blocking on the march and halfback Bob McKeely, Jr., after missing last, Marie C. Edwardsville game, cracked off tackle from nine yards out for a 6-0 lead. Ron Thomas converted from placement.

Belleville got the Maroon machine in high gear in the second period with another TD run, this time, one-yard ahead set up by setback Rich Ballard's three carries which netted 28 yards. Thomas again converted a 14-0 lead.

### 80 Yards In Three Plays The Maroon's made it 21-0 by

halftime by moving 80 yards in three plays. Quarterback Gary Kombrink pitched 29 yards to end Gary Capone, hit McKeely for 18 yards on the next play and then bootlegged the ball 33 yards himself for EBT's third score. Thomas converted for the third time from placement.

Dominating the game so completely that they never forced a kick and scored seven of the eight plays they gained possession, the Maroons dashed what faint hopes the Warriors had at halftime by quickly scoring again in the third period.

The Maroons moved 56 yards in five plays, with substitute quarterback Dave Englebrecht bootlegging for 23 and reserve halfback Jim Goodwin getting 10 yards on two carries to set a 14-yard TD gallop by second-string fullback Ken McCumber. 20-0.

The following items were taken from the files of the Granite City Press-Record

Nov. 15, 1888

Former pupils of Mrs. Fannie Allison, 77, retired Madison post school teacher, have arranged a party in her honor at the Madison high school Tuesday Nov. 16. Invitations have been sent to approximately 300 persons, many of them now middle-aged.

Newly-elected officers of Post 1200 of the Veterans of Foreign Wars and auxiliary were installed at a joint ceremony conducted Friday night. William Redmond was installed as commander and Myrtle Anderson as auxiliary president.

Nearly 200 boys and girls paraded in three big parades Saturday morning in Granite City. Madison and Venice, under auspices of the YMCA Promote club. Granite City winners were Ruth Coase, Jack Anderson, Edgar Shephard, Thomas Fenners, Harold Rogers, Helen Grass, Betty Haddison, Harma Oliver, Anna Toth, William Warnock, Margaret Greaver and Martha Ruth Nelson.

Madison winners were Dorothy Rayburn, Mary Wondra, Mary Carlson, Helen Rogers, Cooper, Sylvia Opich, Franklin Signaigo, Fred Schmidt, Catharine Hamilton, Susan Oliver, Sylvia Wiseman, Joe Fedora, Dorothy Austin, Dickie Hoeb, Eddie Young, Raymond Young, Edgar Douglas, Juanita Dees, Betty Riddle, Raymond Muhlill and Betty Jean Johnson.

Madison also had a dress-up parade, and the winners were Joan Berninger, Betty Davis, Lela Ruth Edger, Alice Noonan, Maxine Price, Ramona Johnson and Julia Ann Lang. Winners of the bicycle parade at Madison were Elmer Decker, John Jones, Doris Barr, John N. Maerz, Jean Martinko and Anna Marie Carlton.

Venice post parade winners were Charles Simon, Edna Francis, Robert Rehms, Mary Avert, Evelyn Sanders, Ralph Britt, Herbert Miller, John Rehms, Bertha Avers, Edith Johnson, Mary Lee Fry, Frances Britt, Charlotte Miller, Marjorie Jones, Charles Hanks, Evelyn Doyle, Glen Towner, Juanita Hart, Earl Starr, Lela Neumann, Mary C. Miller, Jack Grann, Jean Reideberger, Doris Daubert, James Goodrich and Elwood Dehtredige.

Following the parades, there were exhibits at the YMCA. An essay contest was won by Jack Shone and a musical program was given by Mrs. M. J. Neumann, Miss Olive Davis and Harold Berry.

The home of James Lumpkins, 2137a Missouri avenue, was burglarized twice Saturday night. First theft occurred between 10 and 4 p.m. while Lumpkins was asleep and the second took place after 8 p.m. while he was home. On the first occasion, a 15-jewel watch was taken. On the second occasion, a suit of clothes, topcoat and gabardine were taken.

Roscoe Travis of Denver, Colo., has returned home after a week's visit with Mrs. and Mrs. F. H. Beswick of Mitchell.

## THE FORMER

### TOO LITTLE CONCERN OVER DISAPPEARANCES

To the Editor:

I am shocked by the frequent disappearances of teenage girls in this area. But I am disturbed by the fact that no one seems to care.

Not long ago a disappeared girl was never located again, and the only notice of this was a very small notice in the paper. I am sure that if the girl had been found, it would have been a great relief to her family.

Four of the top state officers were by large margins, paving the way for 1964 and fortifying future county strength. In 1966, Mr. Yates found out that his opponent is not stupid but is a statesman who favors sound, stable government.

I do not understand your position in your single in the interest of the Democratic candidate.

### GOV COMMITTEEMAN GIVES ELECTION VIEWS

To the Editor:

Some voters vote for statesmen, but most voters of Madison county vote and support candidates for money. They have no interest in the welfare of the family and friends. Good government of a sound and clean nature was my grand old grandma. In a modern time, it is much too slow and out of place.

### Hopeful, Disturbing Aspects

#### Of The Election Results

Encouraging signs were accompanied by disturbing aspects last week as voters went to the polls in larger than expected numbers—themselves a hopeful development.

Though Democrats dominated Madison county contests and Republicans swept the state races, voters in many parts of the nation showed a growing willingness to split their ballots. This is important, for it is the man, not the party, who fills each office.

Most Quad-Cityans were sorry to see State School Supt. Wilkins lose. Yet, the state voting trend was significant as a rejection of Chicago dictation and the support of the Republican party to foster. With Democrats now outnumbering Republicans 68 to 32 in the U. S. Senate, the re-election of Minority Leader Dirksen must be regarded as in the public interest.

The need for two strong parties—a condition which usually persuades both to nominate high-caliber candidates—also has overtones in regard to Madison county. Immediate success cannot be guaranteed, but the Republican party needs to rebuild in this county from the grassroots on up. A full set of obviously capable and attractive candidates is another essential part of the road back to party strength.

More thought on the part of voters, Democratic, Republican and independent, also would seem necessary no matter who the candidates or what the issues. An example is provided by the two amendments which apparently were approved this year at the state level, but which are not in statewide totals. The controversial judicial amendment not only lost in Madison county but carried with it to defeat in this county the banking amendment, which nobody in Illinois opposed.

Too many voters, evidently, were not paying enough attention to what they were doing when they marked the banking ballot.

It is much better, a lot easier and less expensive to keep your health than to regain it.

### Education, Youth Weeks Challenge

#### Adults To Guide And Understand

Special "weeks" are so numerous that they often overlap. Two such weeks which overlap are the American Education Week, Nov. 11-17, and Youth Appreciation Week, Nov. 12-18. Both cite the importance of adults understanding and guiding young people.

Major emphasis in the 1962 Education Week is on new demands being made on American education by the dynamic, rapidly-changing world. In meeting these demands, schools are developing and must continue to develop improved methods. That a thorough teaching job is accomplished is essential for the students, for community progress and for national survival.

Optimist club members of the Youth Appreciation Week theme of "pat them on the back," is based on the belief that over 95% of today's teenagers devote themselves to constructive activities rather than delinquency. The optimists urge, "Show today's young people that they are worthy of their respect, by giving them yours."

As was said by the philosopher, William James, the deepest principle in human nature is the craving to be appreciated. During this craving, youngsters want and need adult recognition and guidance; teenagers want to know that their efforts to do well are being appreciated.

This week, and throughout the year, millions of children and young adults are being taught, with helpful leadership from their elders, the value of character and perseverance to become effective citizens.

The best way to a person's heart is through your heart.

### St. Clair-Dominated Levee Board

#### Turning Deaf Ear To Quad-Cities

The resignation of Treasurer Jerald Kent is not surprising in view of increasingly questionable stands taken by the East Side Levee and Sanitary District board, composed of five St. Clair county residents. There is no place for a Granite Cityan on the staff of an agency which shows such a scant regard for an area that provides about 40% of its tax revenue.

The issue which led to the resignation was the transfer without his prior knowledge of \$890,926 from interest-bearing accounts in Granite City banks to a Quincy bank which will pay no interest. But the Quad-Cities always have been short-changed by the East St. Louis-dominated levee board except in some instances when election payroll padding, when the support of a few political leaders was being sought.

Many inconsistent and disappointing decisions have been made in recent months. Proposed drainage aid of \$2,000,000 to Granite City was pared so frequently that it finally disappeared entirely. Badly-needed improvements at the Nameoki storm water ditch were ruthlessly discarded. Even the proposed \$100,000 aid for repairs to Aubrey and St. Clair avenue sewer breaks awaiting district sanitary lines has not yet been approved.

It is pretty clear that the levee trustees' definition of "East Side" stops somewhere near the Madison-St. Clair county line. What is so painful to Quad-City taxpayers is that the money they have paid—and are scheduled to continue to pay—nearly half of the many millions of dollars so freely spent by the levee board.

County zoning—subject of a hearing in Chouteau township tomorrow—offers protection and benefits for both farmers and urban residents, as is pointed out in the official stand of the U. S. Department of Agriculture.

Again, as at previous township hearings, Quad-Cityans favoring adoption of zoning are being urged to attend the final hearing, to be held at 3 p.m. Tuesday in the South Rookus Dad's Club building. Their participation can overcome efforts by zoning foes to create a false impression that the public opposes zoning.

From the viewpoint of city dwellers, zoning has been found to protect against excessive taxes, avoid damage to agricultural operation and halt pressure to curtail normal farming practices, it is pointed out by the U. S. Department of Agriculture.

## THE ASTOR SPEAKS

### ONE-KNOWN WORD

Imagine that we could compress the world's population of more than 2 1/2 billion into one town of 1000 persons in the middle of the United States. The act proportions in which the world is actually divided.

In such a town of 1000, there would be only 60 Americans! And these 60 Americans would receive half of the income of the entire town.

Only about 330 of the remaining 940 townsmen would be classified as Christians. Less than 80 townsmen would be practicing Communists and 370 others would be under Communist Domination.

The 60 Americans would have an average life expectancy of 70 years; the other 940 less than 40 years. The 60 Americans would have 15 times as many possessions per person as all of their neighbors.

Could this one-town world survive? If you were one of the 60 Americans, you would be ignorant of Jesus Christ, but more than half would have heard, and would continue to hear of Jesus Christ, Lenin, Stalin and Khrushchev.

What if you were one of the 940? You would be plenty worried about the problem. What are you doing something? What do you think it would be?

## 14,000 Traffic Daily In October On Venice Bridge

The McKinley Bridge began its new fiscal year in October with a 334,023 traffic total and 11,020 daily average — highest ever for an October. The same figures were 394,200 and 12,718 in October 1961.

The new year is the fifth in which the city of Venice has operated the bridge.

The past month's listing shows 96,009 vehicular crossings in the week of Oct. 1-7, 98,840 in the second week, 96,870 on Oct. 15-21, 95,330 in the fourth week and 47,281 during the last three days of October.

It was only the second month in which the daily traffic average has topped 14,000. There were 442,196 crossings for a 14,264 average in August 1962.

## Parking Receipts Down For Year, Up For Month

Granite City parking receipts totaled \$32,995 for the period January through October, down \$3687 from the same period last year.

Parking meters brought in \$3631 in October while parking fines amounted to \$213 for a total of \$3844 for the month. October meter collections were down \$255 from October last year, while parking fines were down \$91.

Meter collections took a considerable jump over September, however, with an increase of \$759. Fines dropped \$3 from September.

The high month this year for meter collections was May with \$5090 and February for fines with \$305.

The increase in meter collection in October was due partially to the fact the meters were in operation 27 days. Only March and August had as many days of operation.

Receipts averaged more than \$142 a day in October. Daily averages were higher only in May and July.

The all-time record high month was August 1961 when receipts totaled \$5170. Of this \$3882 was from meters and \$1288 from parking meters and daily average of more than \$191 for 27 days of operation.

Generally, there is a long-term decline in parking receipts due to the increased number of merchants providing off-street facilities and the establishment of shopping centers.

## Dam Will Open 'New Era,' Dedication Speaker Says

Newly-completed Mississippi River Dam 27 coupled with the Chain-of-Rocks Canal will open a new era in river traffic, Col. Alfred J. D'Arcezo said Thursday afternoon at a dedication of the dam.

Col. D'Arcezo, district engineer of the U. S. Army Corp. of Engineers, and barge lines representative Baxton Carr of Washington, D. C., were featured speakers at the dedication program.

The dedication was held near the Illinois end of the rock-fill dam, which crosses the river about 900 feet downstream from the Chain-of-Rocks Bridge.

The ceremonies were climaxed when two members of the Granite City high school band poured Lake Michigan water on to the revivification rocks as the band played "Old Man River" in the background.

Carr, who is president of the American Waterway Operators, Inc., said such improvements in the natural waterways of this nation have given us an inland navigation system which is "the envy of the world."

Both speakers were introduced by Everett Winter, executive vice-president of the Mississippi Valley Association. His organization co-sponsored the dedication program with the Tri-Cities Chamber of Commerce.

Speaking briefly were Congressman Melvin Price and Walter F. Lawlor, chief of the engineering division of the St. Louis Corps of Engineers. Missouri Congressmen scheduled to appear on the program were unable to attend.

## 'Trick Or Treat' For Unicef Nets \$325 Here

The "Trick Or Treat for UNICEF" program, in which 137 young people from several local churches participated, resulted in the collection of approximately \$325 last week.

Through the special purchasing powers of the UNICEF organization, a gift of this size will provide enough tuberculin vaccine, penicillin and ten cups of milk to supply 3000 children. In addition it will equip a small mother and child clinic in an undeveloped area.

### Those Who Serve

## THE RED CROSS GRAY LADY

a warm, kindhearted friend...

The Red Cross Gray Lady is more than just a volunteer hospital companion.

To lonely patients she is a warm, kindhearted friend who reads and writes letters, brings them newspapers and magazines, runs shopping errands, challenges them to a game of checkers, or just visits.

She serves as receptionist, teaches handicrafts, is a guide to visitors, provides talking, acts as translator and interpreter.

To qualify as a Gray Lady she has undergone a detailed training course and promised to serve a minimum of 150 hours each year

in her community hospital. She has been taught to recognize the fears that often accompany an illness and help a patient overcome them. She has learned the value of friendship and gives it willingly.

"The Gray Lady is intelligent, capable, and has a sincerity of purpose. She receives no pay for her services. Her only reward is the satisfaction that comes from being useful to others. She wears her uniform with pride, knowing she is a member of a vast organization dedicated to comforting the sick, the injured, and the handicapped."

## Hope To Keep Single Assessment Multiplier

Madison county tax assessors will attempt to retain a multiplier of one for the quadrennial real estate assessments to be made next year, County Treasurer Dan W. McGee said Friday.

McGee, who is ex-officio supervisor of assessments, met with the seven-member steering committee of the County Assessors Association Thursday at Edwardsville to initiate plans for the coming assessment.

He emphasized that the meeting was unofficial, and that newly-elected treasurer George Muss will call an official meeting of all 24 township assessors before the assessment begins Jan. 1.

The steering committee members discussed plans and policies they will use in an effort to keep the single multiplier, McGee said.

"I think the state will go along with them if they use certain required assessment factors," he said.

A multiplier of one would mean no increase in present assessments to the property owner.

Most of the county assessors expect to attend a workshop at Springfield Nov. 27 at which problems of the 1963 assessment will be discussed, McGee said. He said Muss probably will call an official meeting of the assessors in December.

While actual assessments will not be recorded until after Jan. 1, the county official said, preliminary reviews and appraisal of property value may be going on now.
